LEDDY SLIM LINK – remote-controlled, versatile LED lamps designed for use in open-top aquariums. Mounted on side edges of the tank, LEDDY SLIM lamps offer a stylish alternative to the conventional aquarium cover. Use them to create a unique decorative effect. Perfect for all aquarium types. **Install the AquaEl Aqu@rium app to control your lamp and change its parameters from anywhere in the world with your smartphone.** Set any light spectrum you want or choose from pre-programmed settings for freshwater, planted or saltwater aquariums.
