

AQUAEL

AQUAEL is a company that is well-established and appreciated around the world – for the last 33 years offering its users modern devices and accessories for aquaria and garden ponds. Its history dates back to autumn 1984 when it was created as a tiny one-person workshop founded by its current owner – Janusz Jankiewicz.

Throughout the years the company has gone a long way to its current position with two production plants of over 25 000 m² total surface, employing 500 workers and using the most modern production technologies. Consistency of action and persistency of its creators followed by the concern for the continuous development made it today's one of the most important companies on the global zoological market. Nowadays the company offers to its Clients complete range of products needed for set up and professional maintenance of both: aquariums and ornamental garden ponds. The AQUAEL's success is made up of many factors, starting from experienced team, through specialized tool-shops and superbly equipped production lines, to the global system of product distribution. AQUAEL – gaining the excellent reputation among the customers and users of its product, the company never ceases to surprise them with the innovations, thus outstripping its competition and proving that it has what the others can only dream of at its fingertips.

The COMFY brand was launched in 2010. It includes products for dogs and cats meeting the basic needs of these animals: beds, carrier bags, toys, brushes, claw clippers, leashes, harnesses and collars, litter for cats and rodents. Most of these products are manufactured in Poland, some are imported. The COMFY products combine comfort of use with practical and fashionable solutions. The brand includes over 500 products. The latest lines of COMFY products include unique fragrant toys for dogs with the DENTAL function (for cleaning the dog's teeth and mouth), the exceptionally sturdy STRONG DOG toys, the edible PLUG SNACK toy inserts, and a wide range of COMFY APPETIT natural treats.

AQUARIUM AND PETS PRODUCTS

ULTRAMAX LINK

UTRAMAX LINK is the first canister filter on the market that can be controlled anywhere in the world by a smart-phone app. The intuitive and easy-to-use mobile application gives the user the ability to remotely control filter performance, set its work modes, and control the amount of debris in the cartridges. The ULTRAMAX LINK also features the innovative pre-filter built into the cover that makes routine maintenance a breeze and minimizes the frequency of cleaning the main filtration media. The ULTRAMAX LINK also provides extremely efficient mechanical and biological filtration, and has double release valves that guarantee safety and convenience when performing maintenance. The patented priming system makes it extremely easy to start the device.

Features

- remote control of the water flow rate
- possibility of programming temporary work modes
- remote control of debris in the cartridges
- extremely efficient mechanical and biological filtration
- built-in prefilter = no frequent cleaning required
- double valves = safe use and maintenance

ULTRAMAX

ULTRAMAX is a technologically advanced and patented canister filter that guarantees exceptional comfort of use, perfect water clarity, and optimum water parameters even in the most demanding aquariums. Thanks to the built-in pre-filter, the time between the main filtration cartridge cleanings is greatly improved. The in-lid pre-filter allows you to replace the pre-filter without removing the filter from the aquarium cabinet!

MAXI KANI

The new MAXI KANI product line includes canister filters fed by separate high-performance pumps. The filters combine a high filtration capacity with the freedom of installation. Their additional advantage is exceptional ease of use. Thanks to their form factor, they can be used in shallow water (10 cm deep or more), which makes them suitable for use also in aqua-terrariums.

VERSAMAX FILTERS

VERSAMAX 1, 2, and 3 filters are designed for perfect 3 stage filtration with mechanical, chemical, and biological filtration. Purified water flows back to the aquarium as a waterfall, picking up vital oxygen on the way. VERSAMAX filters feature adjustable flow rates and have a variety of cartridge option, the Carbomax cartridge for extra clarity for daily use, the standard sponge cartridge when medicating, or the Phosmax cartridge to remove phosphate before it can be used by algae.

- filter is hidden behind the aquarium
- efficient water filtration and aeration
- quiet and easy to maintain

FILTER MEDIA

for filters **ULTRAMAX, MAXI KANI, , MULTIKANI, VERSAMAX, TURBO**

BIOCERAMAX – for biological filtration: BIOCERAMAX 600, BIOCERAMAX 1200 and BIOCERAMAX 1600. Cylinders or balls, made of ceramic or porous glass. Best placed in the flow path after any mechanical filtration.

CARBOMAX PLUS – activated carbon is used for chemical filtration. It adsorbs organic molecules that can cause odor or discoloration of water. It also removes medications and other chemicals.

ZEOMAX PLUS – zeolite removes ammonia from freshwater systems. Not for use in salt water.

NITROMAX PRO – binds the toxic nitrogen compounds produced by fish, improving water quality and removing nitrate before it can be used by algae.

PHOSAMAX PRO – removes phosphates from fresh or salt water, before phosphate can be used by algae.

PHOSMAX BASIC – works selectively – it does not extract useful compounds such as minerals and vitamins.

PLATINIUM HEATER

PLATINIUM HEATER is an innovative glass heater produced by AQUAEL. It is equipped with a high-precision electronic thermostat. Temperatures can be set in the range between 68 and 91°F and are maintained with an accuracy of 33,5 °F (+/-32,7°F). The heater boasts the ONE TOUCH system for intuitive temperature adjustment, a ceramic heat sink, and an embedded electronic thermometer. Each specimen undergoes computer-assisted testing at AQUAEL's laboratory. Since the thermostat is fully electronically controlled, these heaters, unlike other commercially available products, do not have any mechanical contacts or other wear-prone moveable parts. This guarantees a long, failure-free service life for maintaining optimal thermal conditions in the tank. The PLATINIUM HEATER line includes 8 models, with power ranging from 25 to 300 W.

Product advantages:

- a wide-range, high-precision electronic thermostat (+/- 32,7°F)
- the thermostat is fully electronically controlled, which means that there are no failure-prone mechanical parts
- indication of the current temperature of water in the tank
- easily readable indication of the set temperature
- each specimen undergoes computer-assisted testing and calibration at AQUAEL's laboratory to ensure precision and safety of operation

ULTRA HEATER

ULTRA HEATER is an advanced aquarium heater in an unbreakable plastic housing. The heater has a highprecision (±32,45°F) electronic thermostat, a built-in thermometer, and an overheat alarm. The unbreakable housing makes it ideal for tanks in which turtles or large fish are kept. The heater does not cause burns and can therefore be safely used even in tanks whose inhabitants are particularly sensitive to burns.

MINIBOOST

100, 200, 400

A tiny aquarium adjustable air pump with a high output despite a very small size and low power consumption. It significantly improves water oxygenation, creating better living conditions for fish and other aquarium animals. In addition, the use of an aerator spruces up the external appearance of the tank.

- very small size = easy to install
- continuous performance adjustment = suitable for any aquarium
- durable membrane = long service life
- minimum energy consumption = low costs of operation
- made in the EU (Poland)

IWAGUMI ROCKS

We are proud to present a line of aquarium decorations that perfectly imitates natural rock. It is designed for all sizes of tanks. The new rocks are made of resin that is safe for all inhabitants of an aquarium. Their rough surface makes it easy for mounting plants such as moss and other epiphytes to them. Moreover, every rock has a hidden hole, which makes them a perfect hideaway for timid fish.

LEDDY SLIM 5W, 10W, 32W, 36W

LEDDY SLIM LED light fixtures are designed for freshwater and marine aquariums. High quality LEDs ensure proper lighting, provide excellent living conditions for its inhabitants, and create a unique visual effect. The fixture housings are made of corrosion-resistant, easy-to-clean glass. With their futuristic flat design and choice of white or black color, the LEDDY SLIM LED's fit perfectly with modern aquarium tanks and look great in any room interior. Versatile sliding brackets can be mounted on tanks of different lengths, including custom-sized tanks. AQUAEL offers a wide range of models for tanks that are 8" to 48" in length.

The LEDDY SLIM lamps are available in four different versions: The SUNNY (6500 K) and PLANT (8000 K) versions are designed for freshwater aquariums, including plant aquariums, whereas the MARINE (10000 K) and ACTINIC (20000 K) versions are designed for marine aquariums. Thanks to the use of LED's, these lamps do not require frequent replacement and consume half as much energy as regular fluorescent lamps.

- energy-efficient (consume half as much power as regular fluorescent lamps)
- long-lived (up to 50 thousand hours of operation)
- versatile (can be used with tanks of various sizes)
- can be used with custom-sized tanks

VERSA GARDEN HYDROPONIC PLUS

The innovative modules for indoor use. In combination with an aquarium, they are ideal for creating hydroponic installations. They consist of interconnected trays for plant pots. Each module includes four rows of trays, and each tray holds up to three pots (in total, the module holds twelve standard pots 3.5" in height and 4.7" in diameter). The assembly is relatively easy and requires no special technical knowledge. The modules are powered by an attached pump, which should be placed in an aquarium or other tank with water. It is able to raise water to a height of 27.5". A special hydroponic substrate and a specialized LEDDY PLANT 10 W lamp are attached to each module.

- easy to install
- low-maintenance
- versatile application (can be installed indoors or outdoors)
- compatible with standard flower pots
- ideal for growing a wide variety of ornamental plants

VETRO PLUS NATURE

Vetro Plus Nature 40 is a two-level cage for small rodents that combines a traditional wire cage with a glass bottom section. The glass bottom allows you to easily watch your pet at any time without the distraction of wires. The tall glass section can be filled with a thick layer of bedding, so the animal can hide as it would in nature, without the mess like a normal all wire cage. The ladders included with the set will provide small rodents with ample exercise. Also included are a feeder, a drinking bowl, and a cotton substrate in a tube.

- combines the traditional wire cage design with a glass bottom section
- allows you to easily watch your pet
- feeder, a drinking bowl, and a cotton substrate included

| VETRO PLUS NATURE | Dimension [in] | Item Number |
|-------------------|-----------------------|-------------|
| 40 | 15.75 x 9.84 x 14.17 | 1197 |
| 80 | 31.50 x 13.78 x 17.32 | 1198 |

VETRO PLUS NATURE 40

DRINKING BOWLS FOR RABBITS AND RODENTS

The PET INN small animal water bottles set new standards of quality and functionality. The exceptional quality of workmanship distinguish them from other water bottles available on the mass market. The durable water container is equipped with a functional and ergonomic plastic hanger that is resistant to biting (so, there is no more need for unreliable and potentially dangerous wires). Thanks to the clever way of mounting, the water bottle is suitable for virtually all rodent or rabbit cages with any bar spacing. The tip of the water bottle contains two rollerballs to provide effective protection against dripping.

- a universal, convenient mounting system that fits most cages available in the market
- exceptionally strong and durable
- tip with double rollerballs protects against dripping

WOODEN HOUSES FOLDABLE

WOODEN HOUSE are the perfect choice for children who want to decorate the homes of their small rodents like hamsters, mice, rats, guinea pigs, chinchillas, rabbits, etc. Their wood construction and self-assembly design fare perfect for children to color and to develop the child's technical and artistic abilities as well as sense pride and satisfaction as they create the home for their pet. Easy to assemble design that does not require nails or toxic glue make the WOODEN HOUSE collection completely safe for your pets. They are available in three types and five different sizes to accommodate the dimensions of individual animals.

- perfect for small rodents and rabbits
- no glue or nails
- fun and creative

STRONG DOGS ROPE TOYS

The COMFY STRONG DOG toys are designed specially for dogs with very strong jaws. The toys are unmatched in their resistance to biting due to their exceptionally durable thermoplastic rubber (TPR) material. Thanks to this innovative construction material the toys will last for a long time even if used by dogs that can quickly destroy a regular toy. At the same time, the toys are totally safe, being made of EU-approved plastic material. The new COMFY STRONG DOG toys have a strong rope that can be used to play 'throw and fetch' and 'tug of war' with your dog. The toys are offered in five different shapes. They will give you and your pet many hours of great fun!

| STRONG DOG ROPE | Dimension [in] | Item Number |
|-----------------|----------------|-------------|
| Stick | 20.8x2x1.5 | 1250 |
| Strawberry | 17.7x3x2.5 | 1251 |
| Hammer | 19.5x5x2 | 1252 |
| Rope | 13x3x1 | 1253 |
| Ball | 17.5x2.5x2.5 | 1254 |

STRONG DOGS TOYS

Extremely durable dog toys that are specially designed for very active dogs with strong jaws that tend to destroy regular dog toys within a matter of days. The toys are made of extremely durable thermoplastic rubber (TPE). Thanks to their unmatched resistance to biting, the toys will last for a long time even if used by dogs that can quickly destroy a regular toy.

- extremely strong and resistant
- attractive red color
- five different shapes
- absolutely safe for dogs
