

We believe
everyone needs
**to be close
to nature**

AQUAEL

We create the history of world
aquaristics for 40 years.

We manufacture and sell
everything you need to set up
and maintain an aquarium and
pond. Whether you are a beginner
or an experienced aquarist, we
have created something for you.

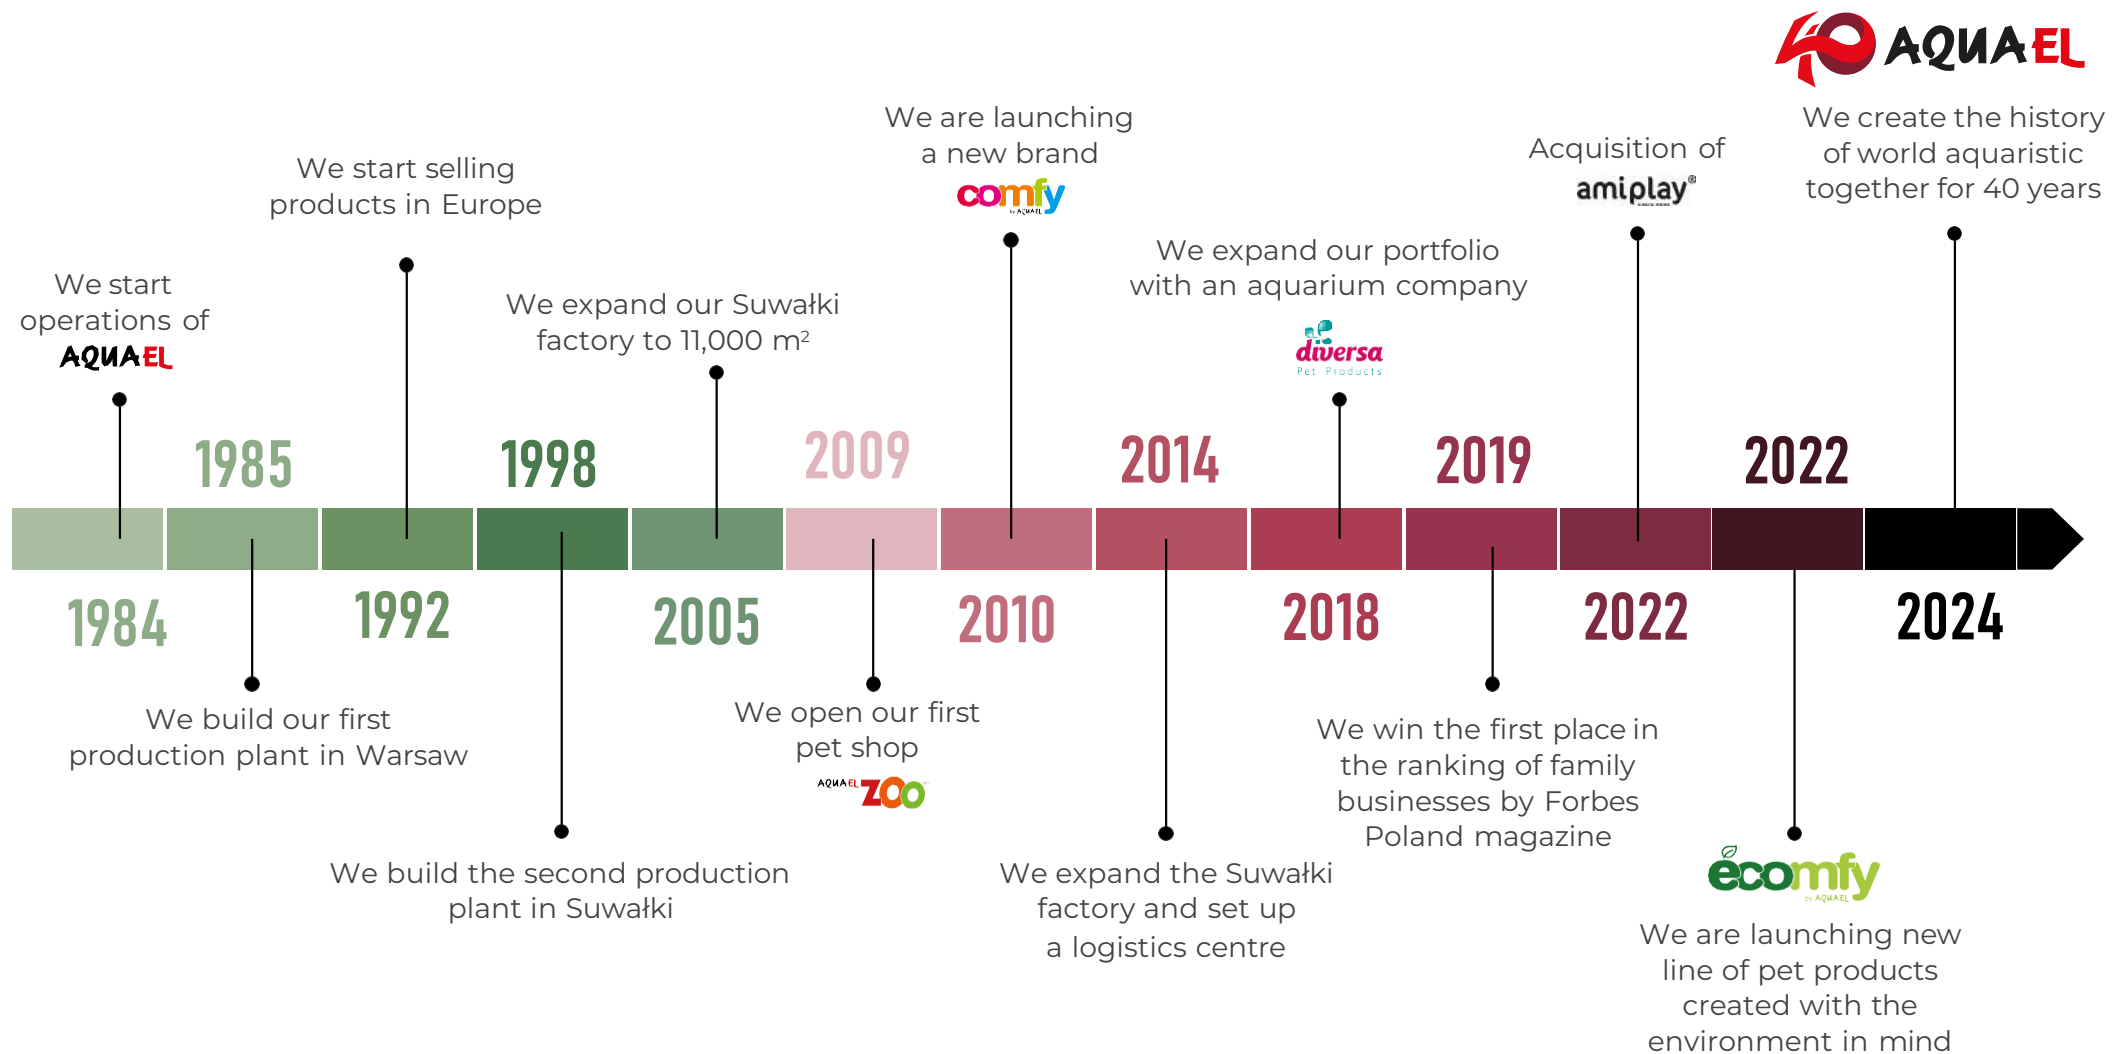

since
1984

The company's history dates back to 1984, when in a small apartment in Warsaw, a freshly graduated engineer, Janusz Jankiewicz, and his wife, Bogumiła, assembled the first 30 aquarium air pumps with their own hands.

The air pumps sold out in the first pet store they visited.

Growth Stages

Aquael Today

NUMBER 1

The leader
of pet industry
in Poland

3 PLANTS

Production area of 275,000 ft²

OVER 30 SHOPS

We operate pet shops in
the largest cities in Poland

600 EMPLOYEES

5 BRANDS

OVER 2500

Products for animals

Aquael Quality

Our products **are designed and manufactured in Poland** and have quality certificates **CE, ROHS, cETLus, cUL**.

They serve users for a long time. We manufacture spare parts, which are available for sale even a few years after the product has been withdrawn

Innovative Solutions

- **Smart Heating System** in electronic heaters
- Useful **pre-filter** in the **Ultramax** and **Hypermax** filters
- **Application-controlled** LED lighting
- Revolutionary control feature with the Aquael BT app using **Bluetooth technology**
- **Smart Open System** in covers

these are just some of our patents and solutions

Aquael Quality

Eco-friendly solutions:

- As the **first** large aquarium company in the world, by 2014 we had abandoned fluorescent tubes in favour of **energy-saving LED lighting**
- By implementing energy-efficient technology, our filters and pumps **use less energy than competitive products**
- We use recycled materials wherever possible

Continuous development

- In addition to developing our product range we **acquire new brands** together with their technological resources
- We have created a **research and development department** and the marketing department has been expanded with a creative team

Aquael Quality

Aquael's future – continuous development

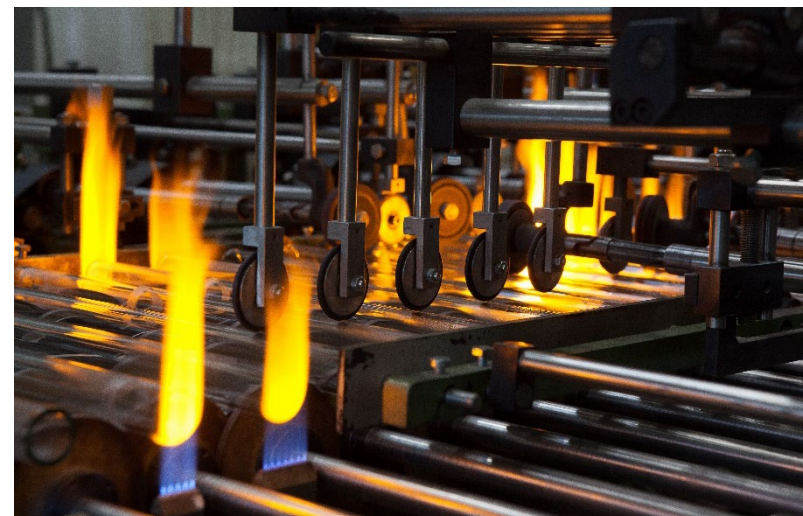

Our plans include:

- further integrating BT technology into more products (expansion of the BT family)
- increasing user interaction
- product innovations, e.g. expansion of models to include cartridges, an internal filter combined with a heater, new ideas for nano aquariums
- In addition, we acquire new brands together with their technological resources

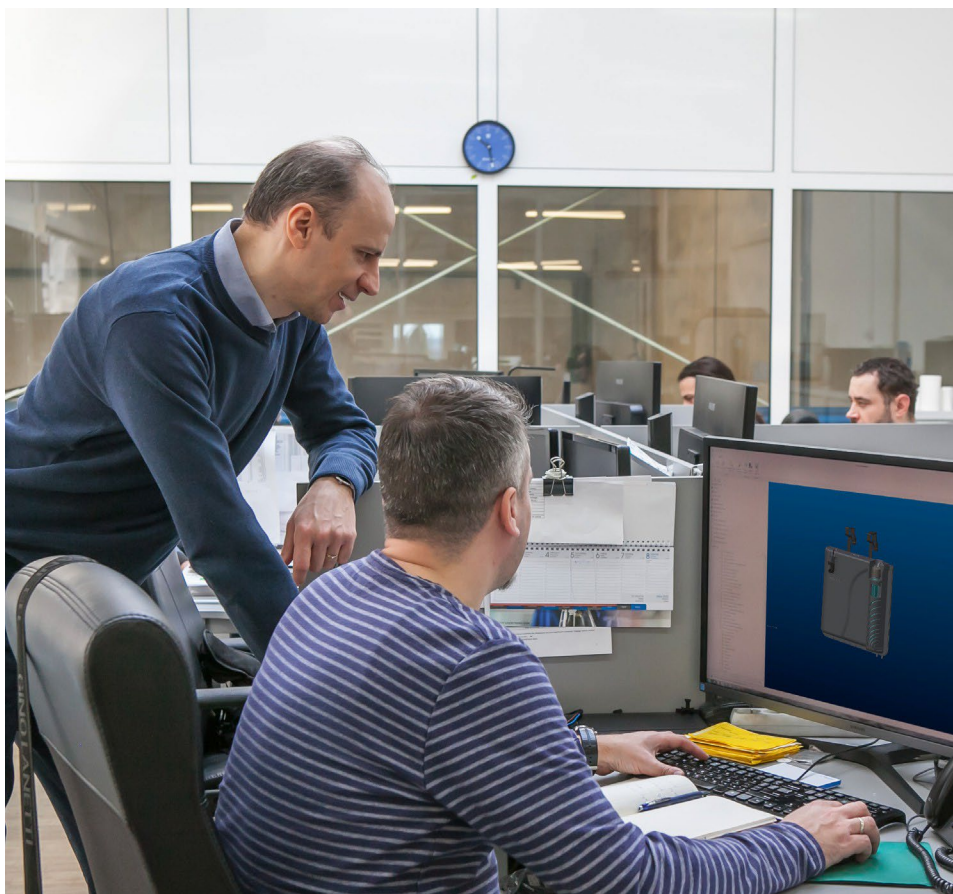

Production Plant in Suwałki

- Our production plant is **ISO 9001 certified**
- Production, warehouse and logistics centre
- Research and development centre
- **22 000 m²** of production and warehouse space
- Almost **500 employees** – engineers, experts and specialists

Research and Development Centre

Every year, up to

10 NEW
PRODUCT
LINES

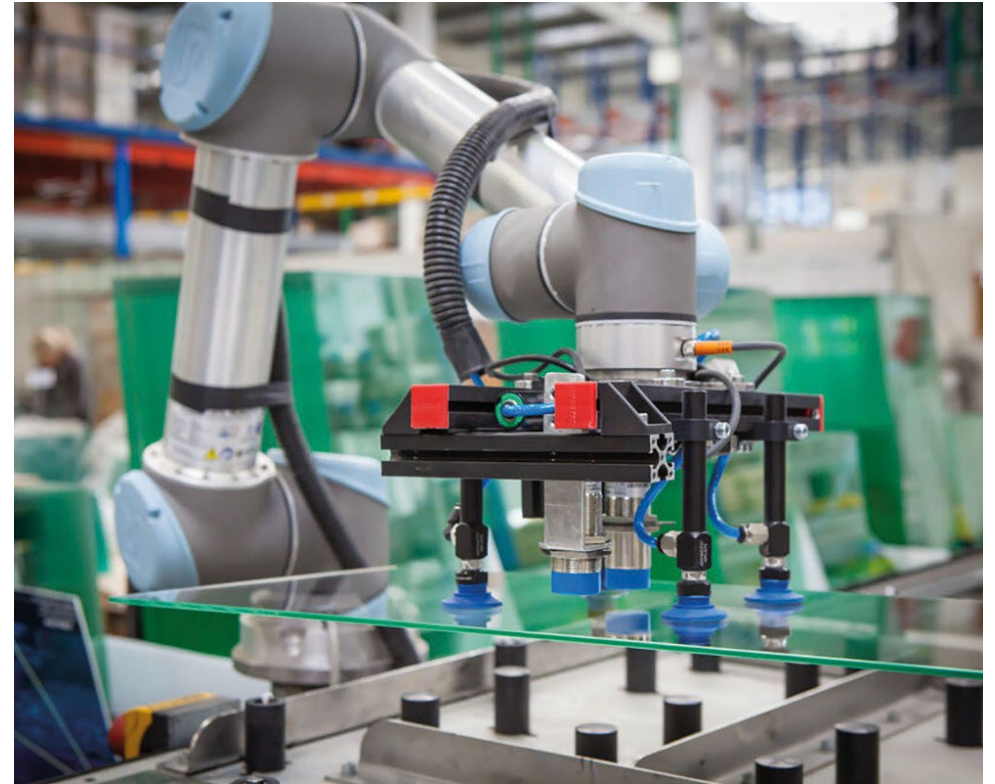

are created by our R&D team

Production and Logistics

330 k
AQUARIUMS

leave the factory every year

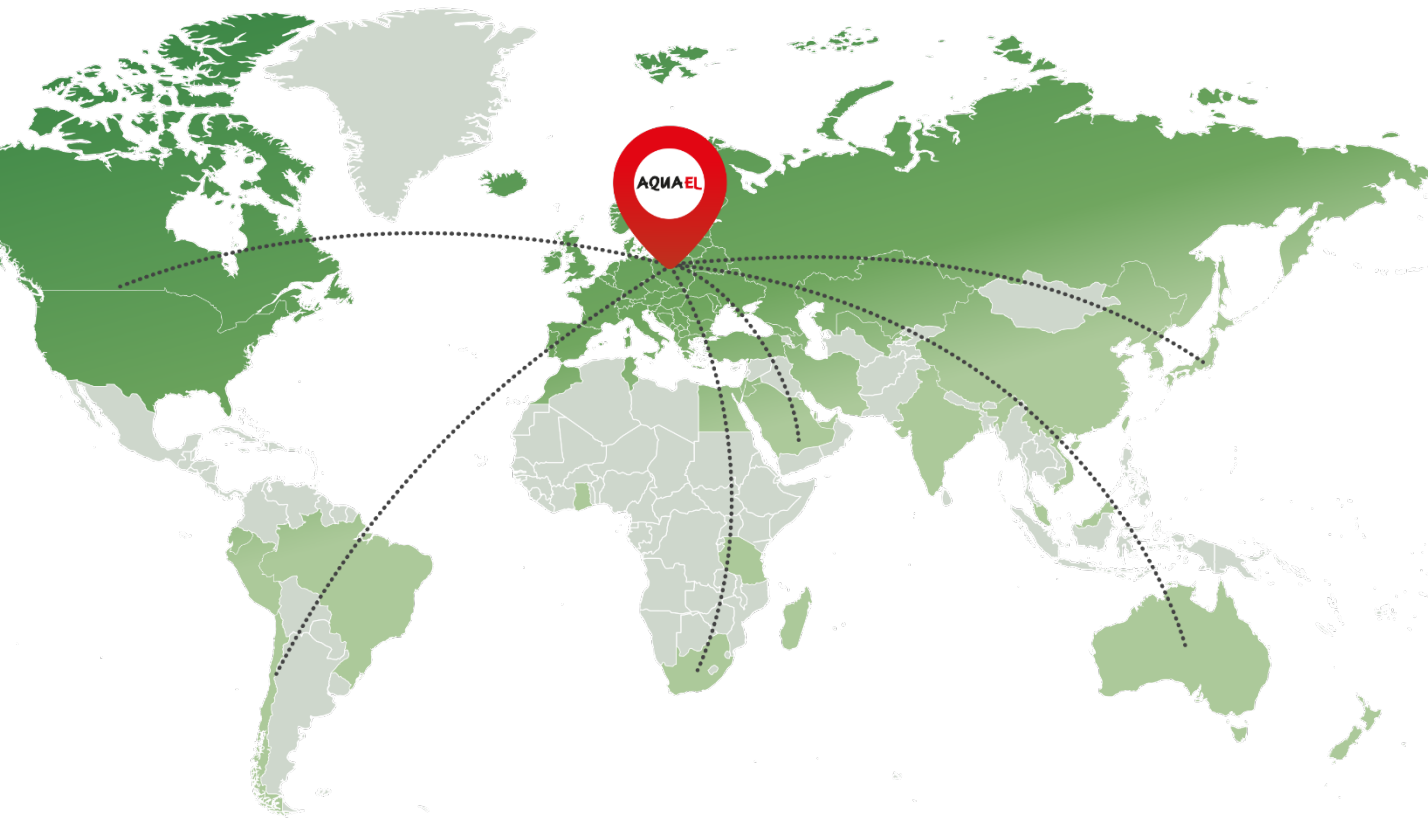

30 ROBOTS

support manufacturing – including
state-of-the-art collaborative robots

Aquael Globally
