

The background of the advertisement is a photograph of an aquarium setup. On the left, a large, dark grey, jagged rock formation rises from a sandy substrate. Several bright green, moss-like plants are growing on the rock. In the foreground, there are more rocks and several small, rounded, green moss-like plants. The water is clear, and the background is a light blue gradient. Overlaid on the image are several thin, curved, light blue lines that sweep across the scene, adding a sense of movement and design. The AquaEl logo is in the top right, and the product name 'Opti Tank' is below it. Two paragraphs of text describe the product's features.

AQUAEL

Opti Tank

Clear from every angle

A crystal clear, unobstructed view of the inside of the aquarium. This is possible in the Opti Tank family – aquariums made of opti glass.

Perfect clarity reflects the natural colours of the plants and animals, and creates the effect of crystal clear water. Refined details, polished and ground edges, precise glass bonding create an extremely light and aesthetic arrangement.

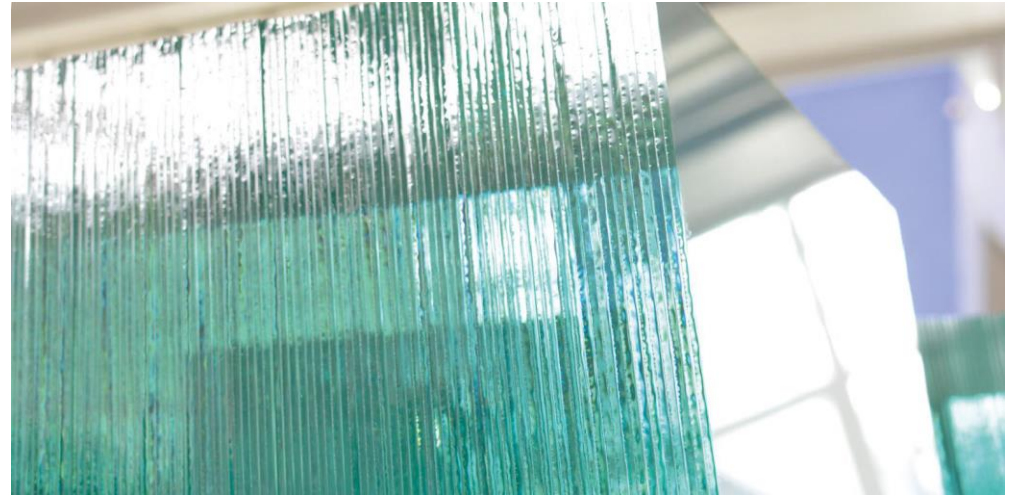

Glass Features

opti type

Opti glass has been stripped of its greenish tint in a special de-iron process. As a result, the walls of the aquarium become crystal colorless, with a high light transmittance coefficient.

All this ensures an uninterrupted visual effect.

The water and the arrangement are almost suspended in the air, and the plants and animals can be admired in their natural colors.

Tank family

Opti Tank

Models & Sizes

The Opti Tank family consists of ten tanks, differing in capacity, dimensions and detailed features. They are ideal for creating spacious and open arrangements. Two dimensions have been created especially for aquascaping arrangements.

Opti Tank

Model	60	80	100
Dimensions [cm] (w×d×h)	60×30×30	80×35×40	100×40×50
Capacity [l]	54	112	200

Opti Tank Scape

Model	60	90
Dimensions [cm] (w×d×h)	60×30×36	90×60×45
Capacity [l]	64,8	112

Opti Tank Diamond

Model	60	90
Dimensions [cm] (w×d×h)	60×30×36	90×60×45
Capacity [l]	64,8	112

Opti Tank Rounded

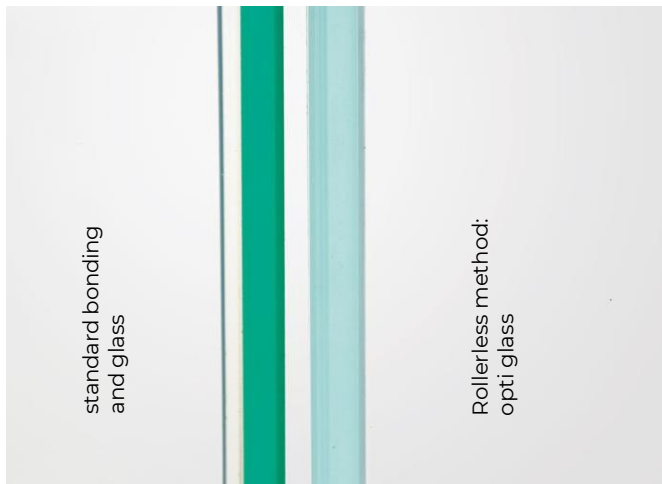

Model	20	30	70
Dimensions [cm] (w×d×h)	25×25×30	29×29×35	39×39×45
Capacity [l]	19	29	68

Common features of all models

The polished edges of the tank and the precise rollerless joining method make the walls fit together perfectly. Transparent silicone deepens the impression of lightness.

1 Opti glass

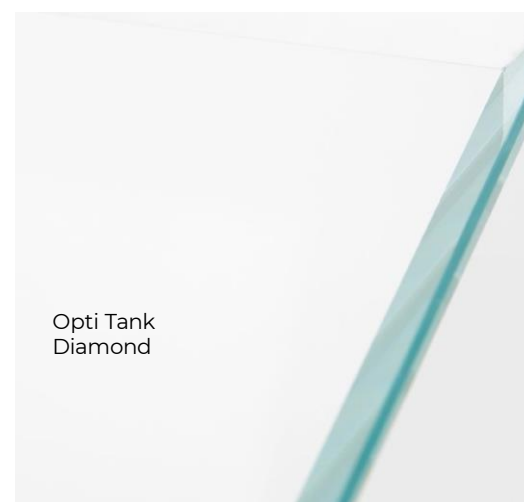

2 Transparent silicone

3 Precise bonding of glass with silicone using the rollerless method

4 Safe, polished edges

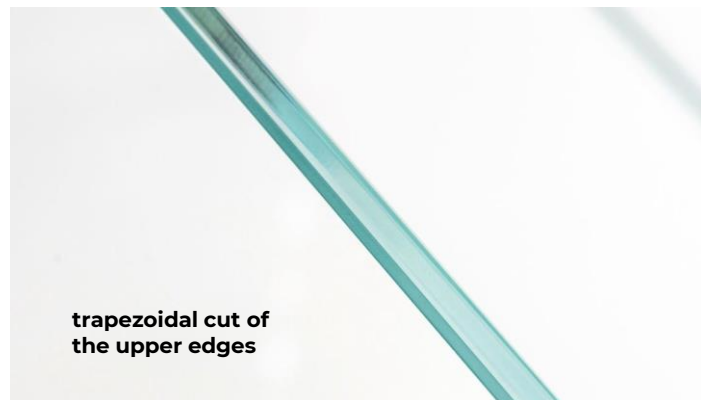

Opti Tank

Details which distinguish

The OptiTank range of aquariums is distinguished by carefully thought-out details. Different dimensions give you design freedom. The safe, polished edges are finished in trapezoidal or diamond cuts. OptiTank Rounded is made in a technology that completely eliminates the connection of the side walls with the front of the tank.
