

UV AS LAMP 3W LED

Sterilizer for medium and small tanks

UV AS LAMP 3W LED is a device used to improve the **quality and transparency** of water in aquariums.

It prevents and helps to combat the effect of green, cloudy water that occurs as a result of the multiplication of algae, bacteria and pathogens.

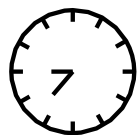

The device is **completely safe for fish** inhabiting the reservoirs, other aquatic animals and beneficial nitrifying bacteria living in the in filters and substrates.
