MULTIKANI 1000

Modular filtration
for growing needs

MULTIKANI 1000

Modular aquarium filter

MULTIKANI 1000 is a modular canister filter that adapts to the needs of each aquarium – from 25 to as much as 400 liters.

An **efficient 1000 l/h pump**, capacious filter chambers and the possibility of expanding up to four modules ensure crystal clear water and a stable ecosystem. The filter works quietly, economically and is easy to maintain, making it suitable for both beginners and advanced aquarists.

The MULTIKANI 1000 is **a reliable filtration system** that grows with the needs of your aquarium.

MULTIKANI 1000

Modular aquarium filter

Quiet filter operation

High filter capacity – 1000 l/h

Low power consumption – only 9.1 W

Very quiet – almost silent filter operation

Possibility of using any selected filter media

Aqua stop system
- water supply retention system

Water flow regulation

Expandable to 4 modules

Safe and convenient filter closure system

1.3 L filter media container

Vibration-dampening feet

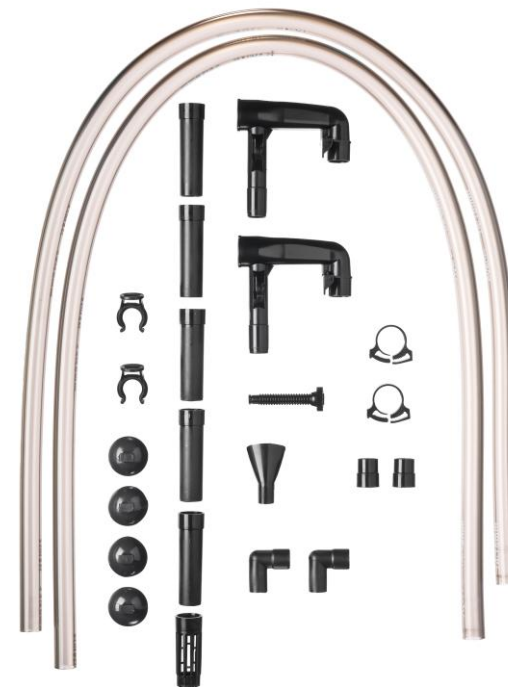

MULTIKANI 1000

Hose diameter [mm]	14/16
Number of pods[szt.]	1
Number of additional containers [pcs.]	1-3
Index	135128

MULTIKANI 1000

Add-on module

The distinguishing feature of the MULTIKANI 1000 filter is its modular design. **1, 2 or 3 additional modules** can be attached to the main module, which increases the volume of filter media to as much as 5.2 liters!

Expanding the filter is very simple and intuitive. Thanks to the **Aqua stop system**, the motor cover can be removed without the risk of water spillage.

The additional module can be filled with any biological or chemical media from the Aqual offer, or you can use ready-made containers with Bioceramax 600, Zeomax or Carbomax media, or use a filter sponge.

MULTIKANI 1000

Comparison with Multikani 800

The new version of the Multikani filter is based on the solutions known from its predecessor – Multikani 800.

In addition to the **sleek, modern design**, several improvements have been made over the previous version, resulting in a **larger filtration capacity, better max head** and **more comfortable use**.

	Multikani 800	Multikani 1000	Change
Engine placement	External pump	In the lid	-
Closure system	Screwing with special wrenches	4 comfortable buckles	-
Flow [l/h]	800	1000	+25%
Max head [cm]	90	120	+33%
Dimensions [L x W x H] [cm]	14x14x20	21x21x21	-
Basket capacity [l]	1	1,3	+30%
Recommended for aquariums[l]	20-320	25-400	-
Overflow tubes	„U” letter-shaped hoses	New wall-mounted version	-
