AQUAEL

Aquarium set ready to go

Neo Set

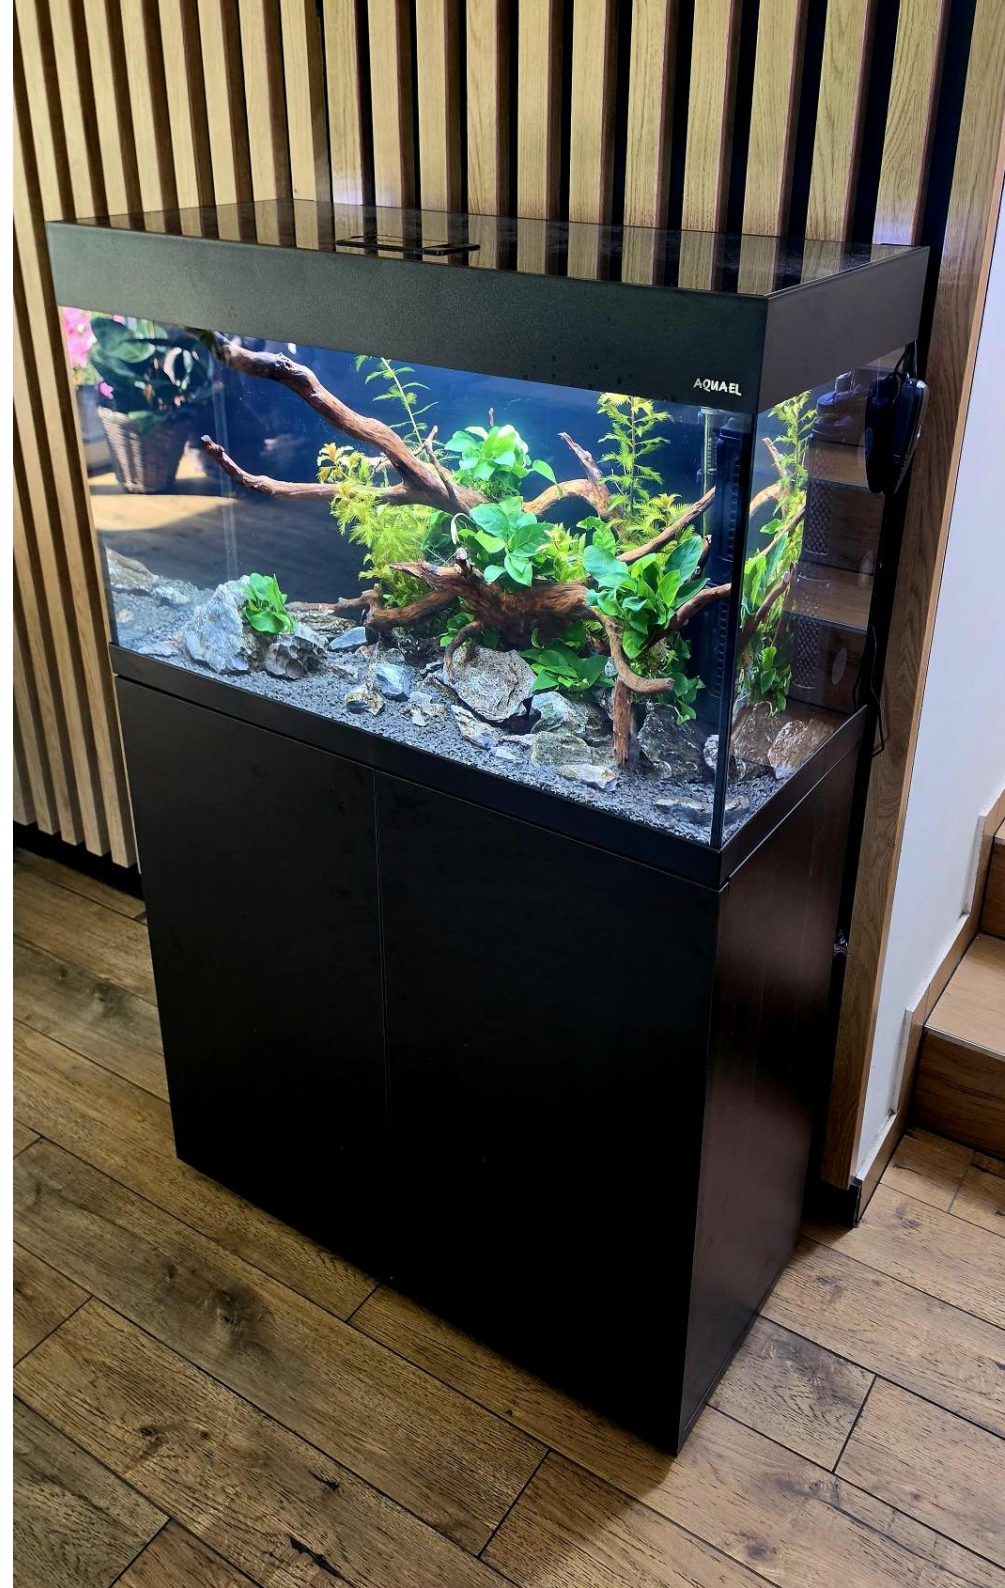

Aquarium set

Neo Set is a **new aquarium set** by Aquael. **It lets you start your aquarium adventure right away** – it includes **everything you need to get started**.

Four generous sizes (125 to 240 litres) provide plenty of room for a stable aquarium with fish and plants, while **carefully selected** equipment matched to each tank capacity – **filter, heater and lighting** – reduces the number of decisions to make in store and the need to choose additional components. **The fitted cover** closes the tank and discreetly conceals the lighting, while **the bottom frame** eliminates the need for a mat under the aquarium.

Fewer purchases, more time to enjoy your aquarium hobby!

Aquarium set

4 sizes:

130

125

200

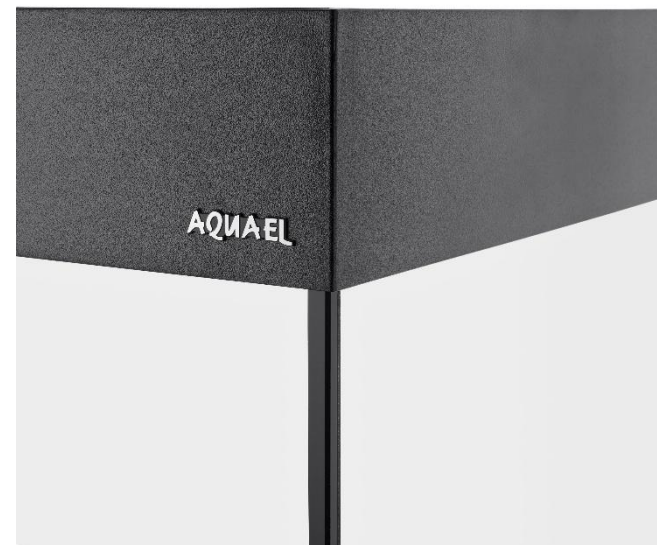

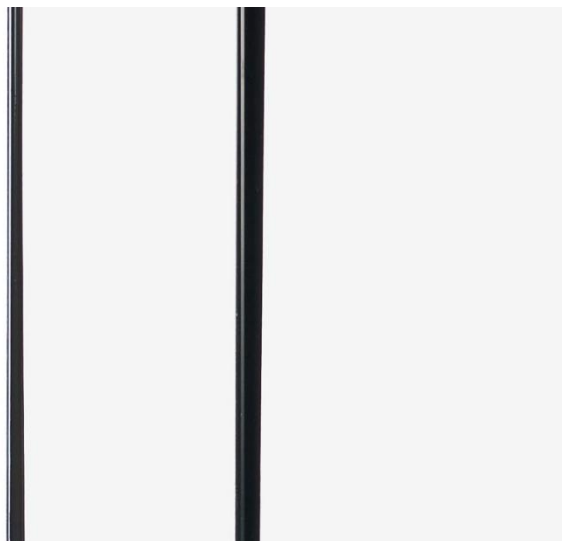

240

Classic black

The Neo Set tank is made of float glass. The aquarium panels are bonded with fish-safe black silicone, and the edges are carefully polished for safe use. The aquarium stands on a bottom frame, eliminating the need for a mat between the tank and cabinet.

Tank made of float glass

Polished edges, black silicone joints

Matt, satin finish of the cover and bottom frame

Feeding flap in the cover for easy feeding

Neo Set

Cover and lighting

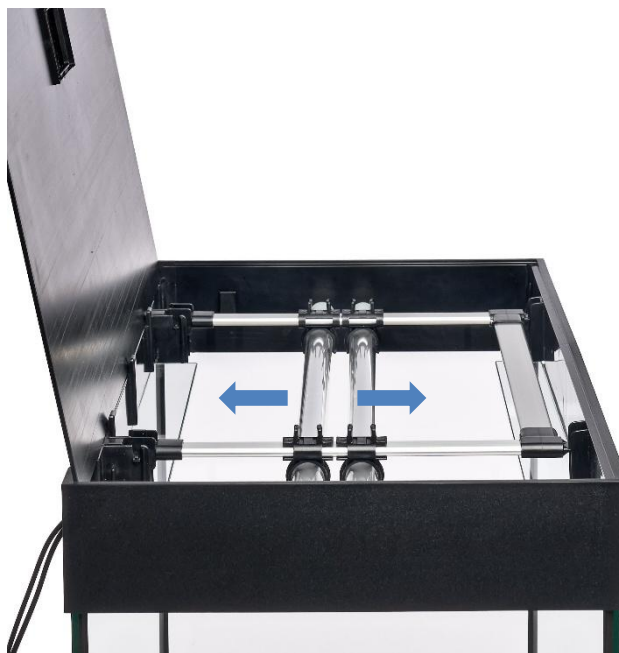

Smart Open makes it easy to open the cover and hold it in the desired position

2 Leddy Tube Sunny Day & Night 2.0 modules included – 3 light modes: DAY, DAYBREAK, NIGHT

Lighting expandable to a total of 9 Leddy Tube modules

Adjustable lighting position

Convenient lighting mounts

Neo Set

Equipment – lighting

Lighting aligned with the daily rhythm – three modes reproduce daylight, dawn and night (DAY, DAYBREAK, NIGHT)

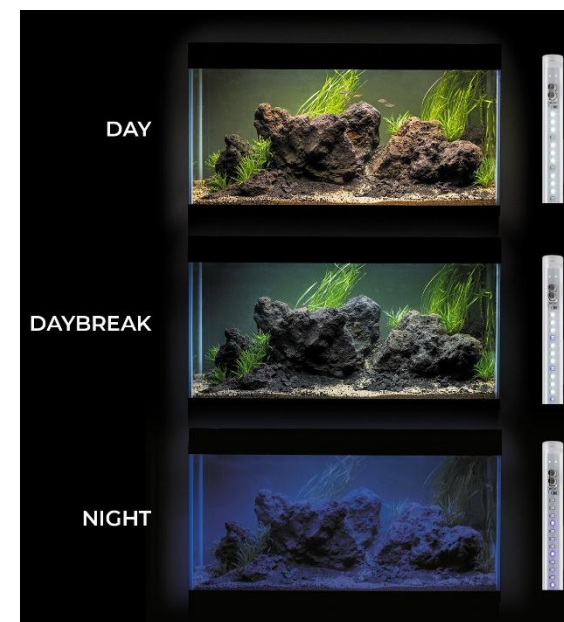

High colour rendering index for natural colours of fish, plants and aquascape

Simple manual switching of lighting modes

Efficient and energy-saving – high luminous flux, low power consumption and long LED life

Leddy Tube
Sunny D&N 2.0

Neo Set

Equipment – filtration

High-capacity filtration up to 1,000 L/h – ensures effective water circulation and purification

Complete filtration in one unit – for mechanical, biological and chemical filter media

Biological-media containers and convenient cartridges – more space for filter media

Module count matched to aquarium capacity – 1 or 2 additional filtration modules, depending on tank size

Choice of outlet – wide-jet nozzle or classic aerating outlet with directional nozzle

The main module contains 2 CarboMAX cartridges and a container with loose NatureMAX media (0.2 L)

The additional module contains 2 CarboMAX cartridges and 2 containers with loose NatureMAX media (2 × 0.2 L)

Neo Bio 1000 – with one additional filtration module

Neo Set

Equipment – heating

Precise temperature control – the electronic thermostat maintains water temperature to $\pm 0.4^{\circ}\text{C}$

Easy one-button adjustment – the One Touch System sets 20–33°C

Clear temperature indication – LEDs show the current and set temperature

Reliable operation – fully electronic thermostat with no wear-prone mechanical parts

Platinum Heater

Neo Set

Set variants

The Neo Set range includes **4 sets with different capacities** and proportions.
Each model has a correctly sized filter, heater power optimised for its capacity and matching lighting.
