Ultra Heater Pro BT

Innovative Heating
Made Easy

The Ultra Heater Pro BT is a series of four innovative aquarium heaters **operated by a mobile device using Bluetooth technology.**

A wide power range **from 25 to 100 W** and the **ability to set the temperature between 19 and 33°C (66.2 and 91.4°F)** give a wide range of applications for a specific heater model in aquariums from 10 to 100 liters (2.6 to 26.4 US gal).

The Ultra Heater Pro BT features the **precision, efficiency and safety** of Smart Heating System technology combined with a **sleek, flat design.**

CONTROL VIA
BLUETOOTH APP
AQUAEL[•]BT

Ultra Heater Pro BT

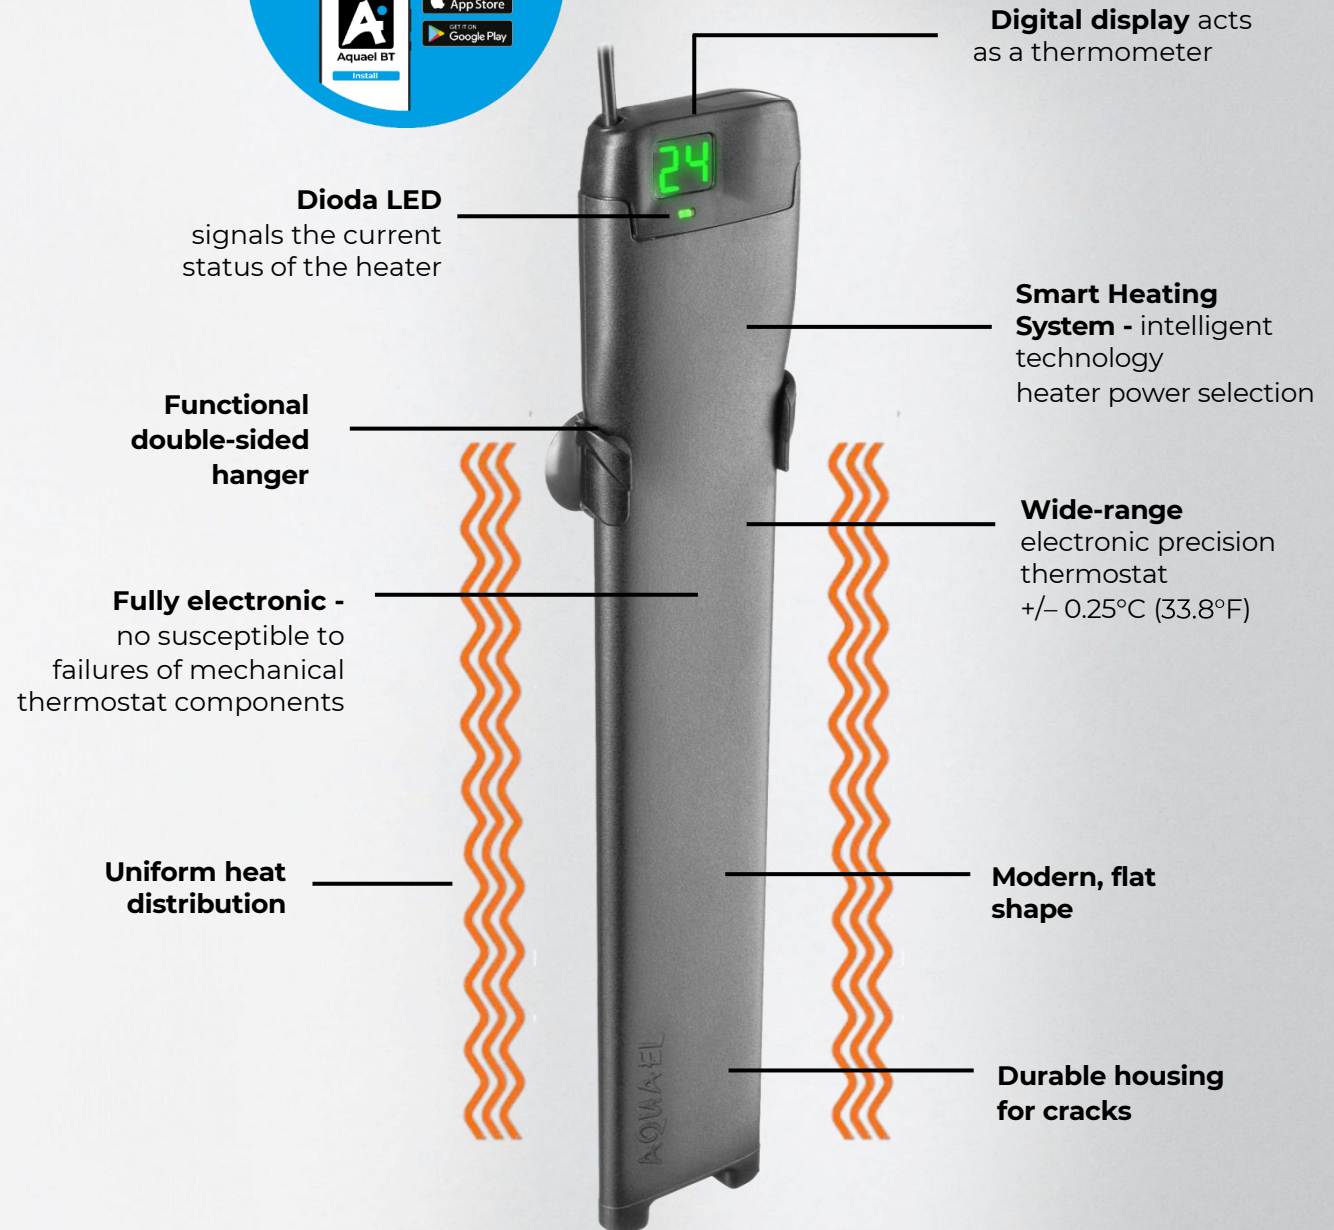

Aquarium heater

Ultra Heater Pro BT takes care of **precise setting of water temperature** in the aquarium

The device has a **built-in thermal switch**. Automatic heater switches off if the water level is too low

Each piece has **been tested and calibrated in the Aquael laboratory** for maximum accuracy and safety

Flow Heater BT

Aquarium heater

Convenient heater control via the AquaEL BT app via Bluetooth technology

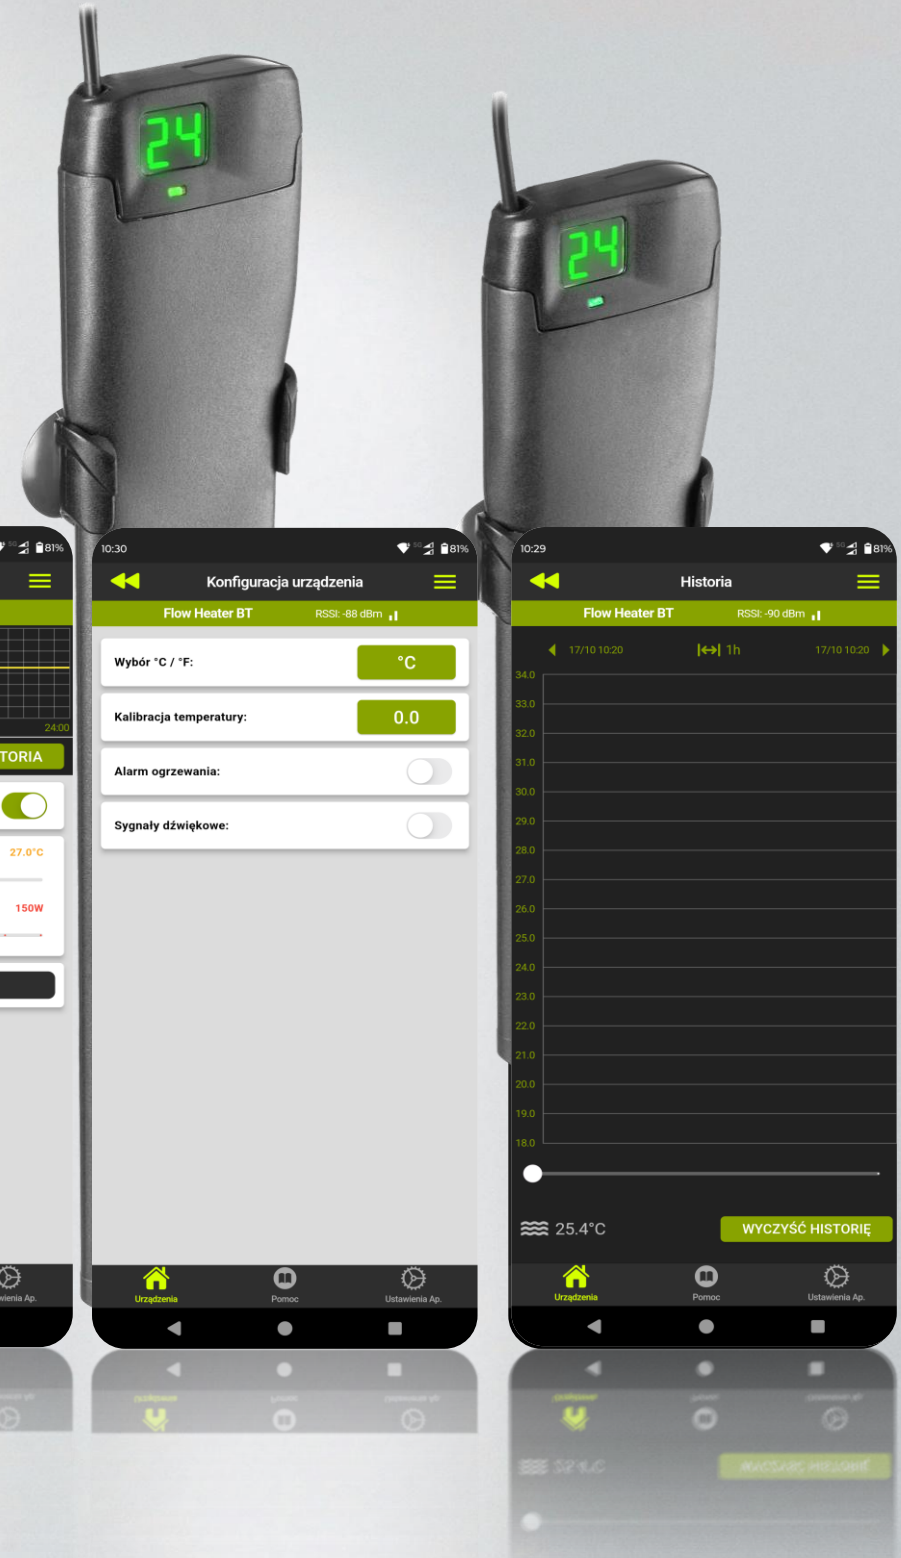

Temperature range **19-33°C - 66.2-91.4°F** (change the heating range every **0.1°C - 33.8°F**)

Possibility to choose the temperature scale, beeps and set a heating alarm

Thermometer function – the ability to check the current temperature

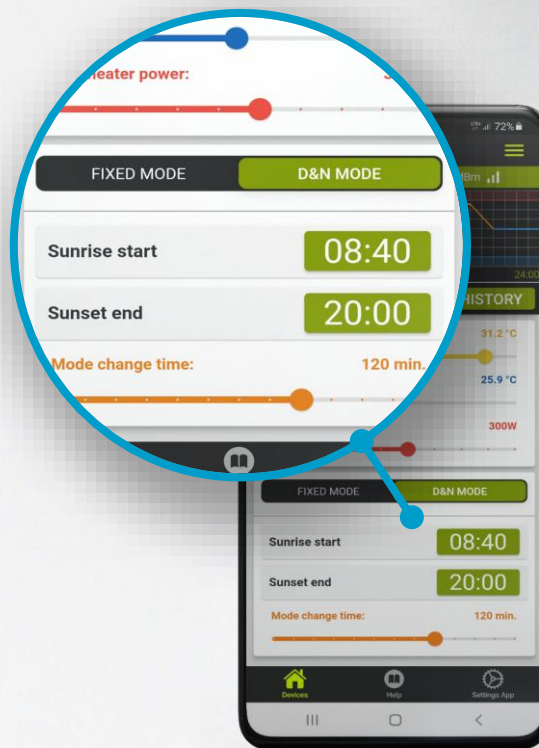

Fixed mode or Day&Night mode, which reproduces the temperature differences between day and night as in nature

History of temperature readings

Index	135074	135075	135076	135077

AQUAEL

Aquael BT Application

All functions in one mobile app

We strive to keep up with the latest technological solutions. That is why we propose to make the maintenance of your aquarium easier with **Aquael BT App**.

Remote control of your aquarium lighting, heating and filtration!

Communicate with your aquarium equipment via your smartphone or tablet using Bluetooth technology.

The app can also control multiple lamps and filters at the same time, as well as share access between other people.

Aquael BT App

Settings personalisation

Use the Aquael BT App to tailor the operation of the units to the individual needs of your aquarium!

Set filter flows and modes, lighting intensity or heating temperature – all in a user-friendly way with simple gestures on the screen. Follow the natural diurnal rhythm using your smartphone or tablet.

It's all about Custom mode!

Gain precise control over the processes taking place in your aquarium. Take advantage of the technological innovations to make your aquarium an oasis of perfect balance.

Aquael BT App

Flow Heater BT

Four powers: 25, 50, 75, 100 W
for aquariums from 10 to 100 l
(2.6 to 26.4 US gal)

Temperature in the range of
19-33°C - 66.2 and 91.4°F
(change the heating range
every 1°C – 33.8°F)

Increases or decreases the set
temperature gently and slowly
within max. 180 minutes

Notifies of any deviations from
the set temperature

Thermometer function – check
the current temperature

Thermostat reading history

PIN locked access to heating
settings

Day&Night function

The water temperature
decreases at night and
gradually rises with
sunrise

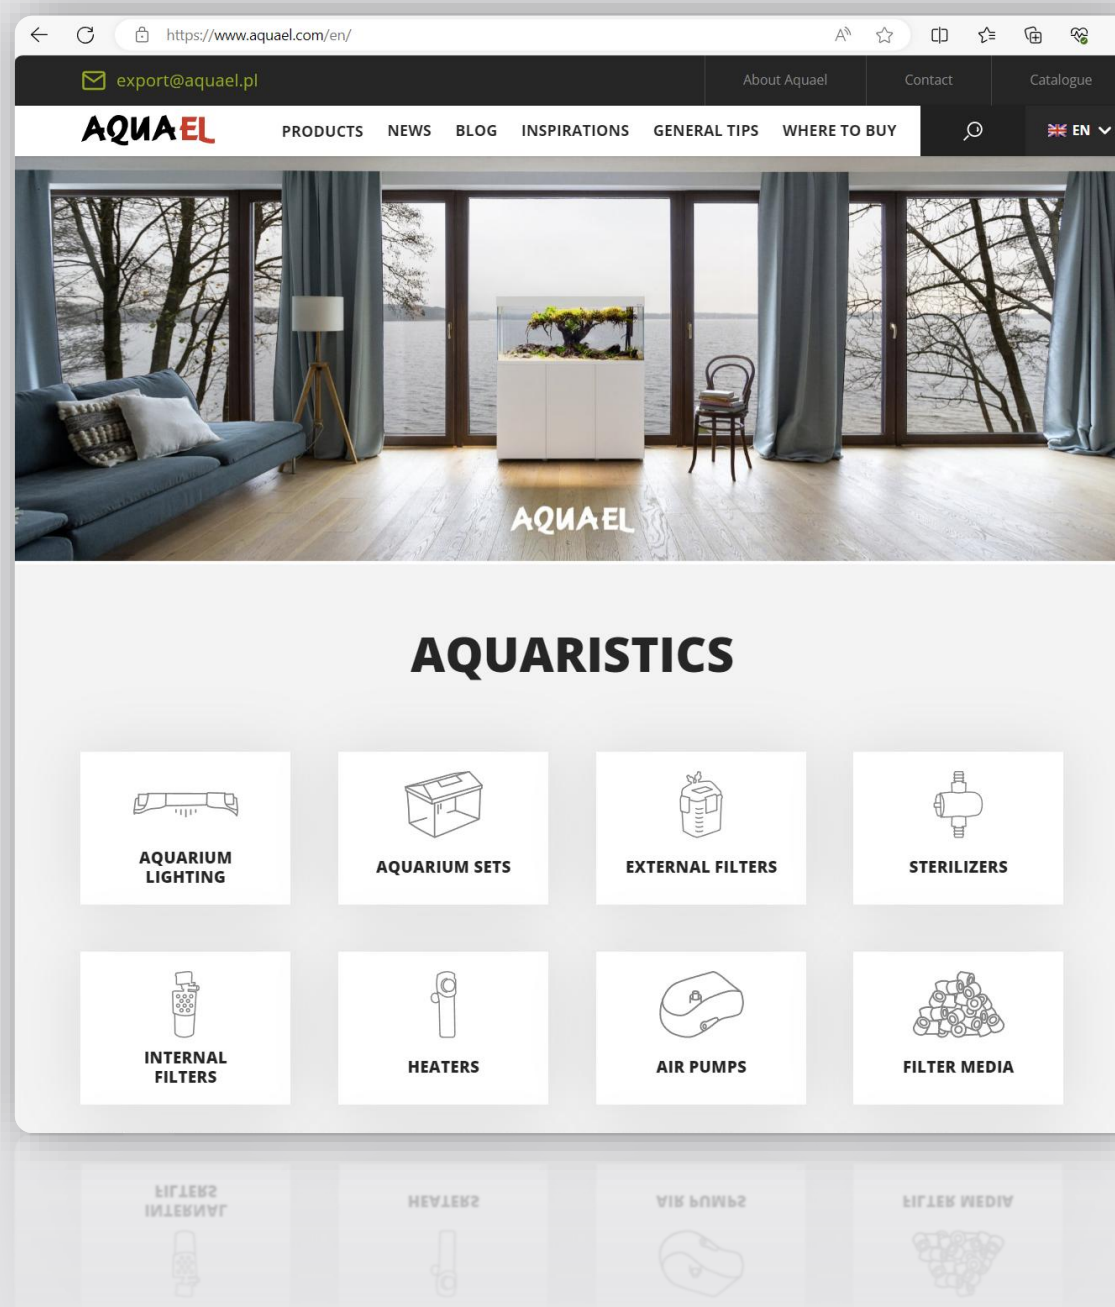

Slowly increases or
decreases the temperature
within max. 180 minutes to
mimic a natural rhythm
