

Gravel shovel

AQUAEL

The gravel shovel **makes it easier to scoop out and remove substrate from an aquarium or terrarium**. Its design retains gravel while allowing water to drain away. **Lightweight and durable**, it is made of sturdy plastic and helps make cleaning and substrate replacement more convenient.

- **Retains gravel and drains water** – makes it easier to remove substrate without carrying excess water with it

- **Lightweight design** – ensures comfortable use when working with substrate

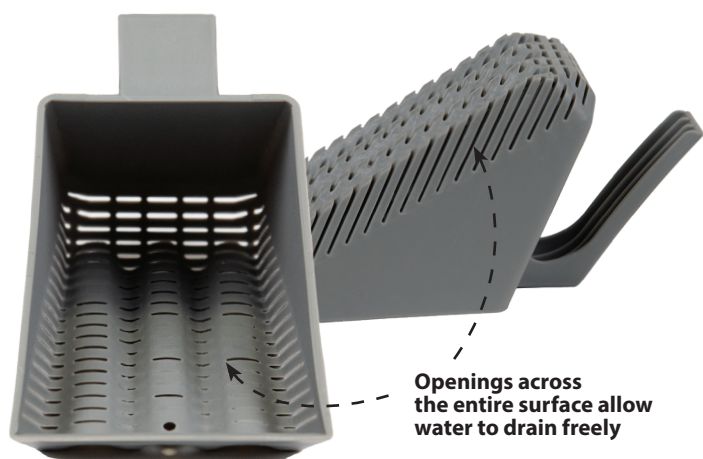

- **Durable plastic** – combines low weight with the strength needed for routine tank maintenance

- **Glass-safe material** – allows use around glass elements of aquariums and terrariums

- **Ergonomic shape** – the handle design allows comfortable manoeuvring

- **For aquariums and terrariums** – one tool can be used to maintain different types of tanks and enclosures

- **For freshwater and marine aquariums** – offers broad use for substrate removal and maintenance work

Openings across the entire surface allow water to drain freely

Name	Gravel shovel
Article number	283052
EAN	5905546352284
Multipack	100 pcs.
