

Aquarium cleaner with pump

AQUAEL

Convenient water changes, hygienic priming

The aquarium cleaner with pump **makes it easier to clean the bottom and drain water** without having to siphon it by mouth. The integrated push-button pump provides a hygienic way to start the flow, while flow control helps manage the water discharge rate. The included tubes and suction attachment with scraper allow the tool to be **adapted to the aquarium depth and the type of maintenance** being carried out.

- **Integrated priming pump**
– starts the water flow at the press of a button, without siphoning by mouth
- **Gravel cleaning and water draining** – combines bottom cleaning with a water change
- **Suction attachment with scraper** – helps remove algae from aquarium glass while draining water
- **Set of 2 tubes included**
– allows the cleaner to be adapted to aquariums of different depths

- **Adjustable tube length** – 28–60 cm
- **Flow control** – lets you adjust the suction strength and tailor cleaning to your needs
- **Flexible drain hose** – helps direct drained water into a suitable container
- **Bucket hose clip** – helps keep the hose outlet in place and reduces the risk of the hose slipping out

Convenient manual priming with control

Regulacja długości odmulacza

Zawór zwrotny dla szybkiego zasysu wody

Możliwość regulacji przepływu lub jego zablokowania

Standard gravel-cleaning attachment

Suction attachment with scraper
